

## City Council Meeting

Date: August 23, 2016

### Topic: Intent to Award 2016 Crack Seal Project

**Action Requested:** Council's Approval for Intent to Award

**Summary:** Staff advertised "request for quotes" regarding crack sealing of numerous city streets. Contractors were asked to submit a quote for the preparation and application of crack sealing material. The selection of a contractor was based upon the lowest per lineal unit cost. The Transportation Dept. budgeted \$40,000.00 for this program.

Staff opened submitted quotes for this project on August 17. There were 3 quotes opened with the apparent low quote of \$.44/cents per lineal foot submitted by CR Contracting of Bend Oregon.

Staff asks that the City Council approve the intent to award to CR Contracting at the quoted price of \$.44/cents per lineal foot.

The 2016 Crack Seal Project quote results per lineal foot were as follows:

CR Contracting	\$.44
7 Peaks Paving	\$.50
Tri County Paving	\$.54
