

## Prineville City Council Meeting April 8, 2008

### Issue Summary

#### *Topic: Water Ordinance Review*

**Department: Administration**

**Staff: Robb Corbett**

---

#### **Overview**

Existing policies that govern the Water Department are:

Ordinance 910	Rules and Regulations (January 27, 1987)
Ordinance 925	Backflow Prevention (August 9, 1988)
Ordinance 933	Amending 925 (March 28, 1989)
Ordinance 1027	Amending 910 (November 28, 1995)
Ordinance 1043	Controlling Irrigation (June 16, 1997)
Ordinance 1092	Requiring Backflow Devices (March 27, 2001)

These ordinances were included in your packet previously.

Staff is attempting to schedule another meeting Wednesday, April 2<sup>nd</sup> to discuss the work thus far and we anticipate that we will be able to deliver the council a proposed document before the end of the week which outlines the proposed changes.

Staff will present to the council the proposed changes and a brief explanation of each change at this council meeting. It is anticipated that the council may authorize staff to proceed with a final document to be brought to the council for approval at our April 22<sup>nd</sup> council meeting.

#### **Recommendations**

Staff would suggest at this time that the council review and discuss the proposed changes, to be provided, and direct staff on how to proceed.
