Staff Report: Roundabout Feature Direction

Overview:

City Council initiated a Roundabout Feature Committee to make recommendations on a feature for the Tom McCall Roundabout. The Committee's first workshop was held February 13, 2018. The Committee directed staff to create and distribute a survey asking for input from community members, survey results below.

The Committee held a second workshop 6/12/18 to review survey results and discuss next steps. Committee members reviewed a drawing based on the top three themes from survey responses (logging, ranching, and mining).

SURVEY:

A 5 question on-line survey was launched 5/3/18, and 1,017 people responded over the course of several weeks.

- 5/3/18: Launched on Survey Monkey, Facebook, and Twitter: 9846 reached, 180 comments, 58 shares
- 5/17/18: Survey reminder post: 1,550 reached, 14 comments, 2 shares
- Roundabout Committee Workshop post: 1,575 reached, 21 comments, 20 shares

City of Prineville Sponsored

The purpose of a feature/art/landscaping in a roundabout is the limit or reduce sight distance through the roundabout. Limiting this sight line allows drivers to focus on vehicles to their left that is already... [More](#)

Your input and involvement is a tremendous part of the equation in making decisions for the Prineville community. The City, County, and ODOT hosted 11 public meetings between November 2015 and January 2018 asking for input and answering questions on the Tom McCall Roundabout. Stay engaged and take the roundabout feature survey and save the date to attend the Roundabout Committee Feature Workshop June 12 at 5:15 pm.

Just a reminder that the Roundabout Feature Committee and City Council will hold a workshop tomorrow at Prineville's City Hall in the City Council Chambers. Roundabout feature survey results will be reviewed during the workshop starting at 5:15 pm. We hope to see you there!

CONSIDERATIONS:

- The City needs to provide a general idea of the roundabout feature layout by August for ODOT to perform the removal of the dirt mound or costs will increase.
- 1,017 people responded to the survey (10.24% of Prineville's population)
- Common themes from the survey included:
 - Celebrate the history and character of the community
 - Be timeless
 - Forest Products, Ranching, Natural resources
 - Do not waste money and do not look like Bend

OPTIONS FOR MOVING FORWARD:

1. Council chooses a theme/design at this time and directs staff to implement.
 - There may be push back from Committee members who do not like Council's direction.
2. Hire a facilitator to help the Committee make a decision.
 - This may appease the public but not get us much further along.
3. Continue the focus group in its current make up.
 - What additional information does the council need to make a decision?
