

Ch 6: Transportation & Circulation

Goal 1: Create functional transportation system to maximize and extend life of transportation facilities and improve livability

Transportation Choices & Vehicle Alternative Programs

	O	C	PC	ST	LT	E	Comments
1 Update TSP on regular basis	O						Next update - 2012
2 Update 2006 TSP				ST			Grant received - begin early 2012
3 Inventory & prioritize needed alternate mode improvements			PC	ST			Part of TSP update
4 Inventory & prioritize funding alternatives				ST			Part of TSP update
5 Recommend improvements to City Council each year	O						5-year CIP (updated annually)
6 Coordinate transportation discussions among state/locals	O						Hwy 126/EDCO/TSP/COACT/OAPD/COCO
7 Develop safe/efficient transportation system / CB analysis	O			ST			project-by-project ESEE / TSP Update
8 Coordinate transportation providers w/ emergency services	O						Development Review Committee/ TSP PAC
9 Design street templates that illustrate types/classifications		C					Standards & Specs - some flexibility
10 Prepare Standards & Specs manual		C					updated as needed
11 Organize Technical Transportation Team				ST			Part of TSP update
12 Maintain City of Prineville Railroad	O						Primarily railroad function
13 Preserve abandoned railroad corridors	O						Grant applications prepared
14 Implement plan for train scheduling		C					Railroad function

Goal 2: Create supportable method for determining & monitoring street capacity/service levels

Street Capacity and Service Levels Programs

	O	C	PC	ST	LT	E	Comments
1 Coordinate signalization performance with ODOT	O						Will also be considered in TSP update
2 Analyze & review accident data - include mitigation options	O			ST			Development review / TSP update
3 Designate intersections that will be subject to delay				ST			Part of TSP update
4 Examine and review corridor performance				ST			Part of TSP update
5 Monitor air quality and report to Council				ST	LT		
6 Utilize committee to evaluate cut-through problems	O						Traffic safety committee; part of TSP update
7 Create standards to evaluate local intersections - v/c ratios		C					Complete but will be part of TSP update

O = ongoing C = complete PC = partially complete ST = short-term LT = long-term E = eliminate

Goal 3: Create method for determining adequate & consistent transportation impact analyses & improvement/mitigation

Impact Analysis & Mitigation Programs

O C PC ST LT E Comments

	O	C	PC	ST	LT	E	Comments
1 Revise land use regulations to require TIA for 20+ trips		C					
2 Monitor cumulative effect of trips in submitted TIA	O						Project-by-project; also part of TSP Update
3 Determine mitigation for traffic impacts of development	O						Project-by-project (Ochoco Lumber)
4 Establish SDC methodology for master planned projects		C					Will be updated with TSP Update

Goal 4: Develop supportable and sustainable financing method for transportation sytem master plan improvements

Transportation Funding Programs

O C PC ST LT E Comments

	O	C	PC	ST	LT	E	Comments
1 Add comprehensive financing element to TSP				ST			Part of TSP update
2 Review/update TSP on yearly basis						E	State guidelines for 5-year review, not 1-year
3 Review SDCs annually - adjust to cover inflation	O						Based on regional Construction Cost Index

O = ongoing C = complete PC = partially complete ST = short-term LT = long-term E = eliminate
